INSTRUCTIONS

aquabionic™

Stainless Steel Spring Strap

- 'Spin to Fit' adjustment controls correct spring tension for comfort and security
- Micro-adjust capability with 3.0in / 7.5 cm of adjustment to the overall length of the strap
- Proprietary turnbuckle screw action based design, allowing for no-tool adjustment
- Fits all sizes of aquabionic fins
- When attached to the fin, rotate the heel pad to adjust the length of the strap.
- When detached from the fin, rotate each buckle to adjust the length of the strap.
- To completely remove the spring straps from the fins, rotate the buckles 90 degrees vertical to the foot-pocket. The notches on the buckle will align with the groove on the fin post to allow removal.

ATTENTION: The safety clip secures **one** buckle to each fin preventing unintentional release. **To remove** the buckle with the safety clip, gently lift (using a tool) the safety clip **while** rotating the buckle 90 degrees vertical to the footpocket.
